

About Us

Glosap consulting is a Singapore based company founded in 2006. It was created to give clients more value added services than just a consulting company. Our sole focus is to help our clients to get the best possible return on their investment (ROI) in IT Investments. We listen, assess, advise and educate, and we're pro-active, sharing knowledge and experience of the latest developments in the SAP product range, VMware Solutions, Web Solutions, Master data Online and helping customers to understand how new features and technologies could benefit them.

Glosap Objectives:

Value to our clients in whatever we do. We are a solutions business leveraging company, the business and technical acumen of our people, and the technology of our partners to bring daily value to our clients.
